

Zeeshan Ahmed

Frontend Developer · React | Next.js | TypeScript

Islamabad, Pakistan | +92 3353320246 | dev.zeeshanahmed@gmail.com | zeeshanahmed.vercel.app | <https://linkedin.com/in/zeeshanahmed> | <https://github.com/zeeshanahmed>

Professional Summary

Frontend Developer with 2.5 years of production experience and 7+ shipped products, several owned end-to-end as the sole frontend developer. Builds responsive, high-performing web applications with React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3 and Next.js, using React Hooks, Redux and component-based architecture. Skilled in RESTful API integration, performance optimization, debugging and Material UI. Contributed to ioMoVo, an AI-powered enterprise DAM platform showcased at IBC Show 2024, Amsterdam. Based in Islamabad and available to join immediately.

Skills

Frontend: HTML5, CSS3, SCSS, LESS, JavaScript (ES6+), TypeScript, React.js, Next.js SSR/SSG

Backend: Node.js, Express.js, MongoDB

Libraries: Redux Toolkit, TanStack Query, Zustand, Material UI, Ant Design, Tailwind CSS, Bootstrap, ShadcnUi, Radix UI, Framer Motion, Socket.io, React Hook Form, Jest, React Testing Library, Recharts

Tools & Quality: Git, GitHub, RESTful APIs, JSON, Vite, Chrome DevTools, Firebase, Clerk, Figma, Vercel CI/CD, ESLint, Prettier, Husky

AI-Assisted Development: Claude & Claude Code, Cursor, ChatGPT/Codex, GitHub Copilot, Google Antigravity IDE, AI-assisted debugging, refactoring, and test generation

Practices: Debugging, Performance optimization, Responsive web design, Cross-browser compatibility, SEO-friendly development, Web Accessibility (ARIA, semantic HTML, screen-reader testing), Lazy loading, Code splitting, Query caching, i18n & RTL localization, Agile/Scrum.

Work Experience

Frontend Developer — *IR Solutions, Islamabad, Pakistan*

Jun 2025 – Jul 2026

- Delivered 7+ production web apps with React.js, Next.js and TypeScript, including a CRM, a loyalty rewards system, a learning admin panel and a real-time quiz app, owning architecture, REST APIs and deployment.
- Built reusable components and feature-based structures, managing state with TanStack Query and Zustand.
- Implemented role-based dashboards with protected routes across 15+ modules, plus real-time Socket.io notifications.
- Improved performance with lazy loading, code splitting and caching; kept quality high with ESLint, Husky and Git code reviews.
- Worked with designers and backend engineers to build responsive, accessible HTML5/CSS3 interfaces.

Frontend Developer — *XtecSoft, Karachi, Pakistan*

Jan 2024 – Mar 2025

- Contributed to **ioMoVo**, an award-winning AI-powered DAM platform showcased at **IBC Show 2024, Amsterdam**.
- Built the **ioPortal** module end-to-end: shareable portals with secure file management, previews and role-based access.
- Led the migration from JavaScript to **TypeScript** and upgraded React 16→18 and Material UI 4→5.
- Refactored class components into functional components with hooks, improving rendering performance.
- Implemented RTL layouts and multilingual localization for Arabic-speaking markets.

Projects

Community Software — Content Management System (CMS) & Admin Panel

community.scalezy.com

Sole Frontend Developer · React, JavaScript, TypeScript, HTML5, CSS3, Vite, Ant Design, Tailwind CSS, TanStack Query, Zustand

- Built a custom CMS and admin dashboard from scratch for courses, workshops, communities, members and content.
- Built a multi-step drag-and-drop course builder for modules, lessons and quizzes, with rich-text editing and file uploads.
- Built searchable, paginated, virtualized tables with debounced search, query caching and optimistic updates.
- Owned frontend architecture, REST API integration, responsive UI and deployment.

Movix — Search & Discovery Platform *(Hackathon Project)*

movie-discovery-platform.vercel.app | github.com/zeeshanahme-d/Movies-website-react.js

React.js, JavaScript (ES6+), HTML5, SCSS/SASS, Redux Toolkit, React Router, TMDB API

- Built a responsive movies discovery platform on the TMDB REST API with search, filters, and detail pages.
- Implemented reusable UI components, Redux Toolkit for state management.
- Improved performance with lazy loading, code splitting, infinite scroll with virtualization.

Stampy — Digital Loyalty Rewards Platform

stampyapp.me

Sole Frontend Developer · React, JavaScript, TypeScript, HTML5, CSS3, Vite, Ant Design, Tailwind CSS, TanStack Query, Zustand, Stripe

- Built two production web apps from scratch for business owners and branch managers, owning REST APIs and deployment.
- Implemented authentication, onboarding, Stripe payments and CRUD for branches, staff, campaigns, and rewards.
- Built responsive analytics dashboards, optimized with lazy loading and code splitting.

Partner Portal — Business Management & CRM Platform

partner.irsolutions.tech

Sole Frontend Developer · React, JavaScript, TypeScript, HTML5, CSS3, Vite, Ant Design, Tailwind CSS, TanStack Query, Zustand, Socket.io

- Built a production role-based CRM with CRUD across 15+ modules for leads, clients, partners, projects and payouts.
- Implemented granular RBAC with per-action permissions controlling routes, modules and UI, plus real-time notifications.
- Improved performance with lazy-loaded routes, code splitting and query caching.

Saudi Taxi — Online Taxi Booking Platform

sauditaxi.online

Sole Frontend Developer · React.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, React Router, WhatsApp API

- Built a responsive taxi booking platform for Umrah and Hajj travelers with route, vehicle and passenger selection.
- Integrated the WhatsApp Business API for instant booking confirmations.
- Delivered a clean, accessible UI with Tailwind CSS across mobile and desktop.

Education

Intermediate (HSC) in Computer Science

Govt. Dehli Science College — Karachi, Pakistan

Jun 2021 – Jun 2023

Website Development *(Full-Stack Certification)*

Saylani Mass IT Training — Karachi, Pakistan

Dec 2022 – Dec 2023
